I did not want to send a pdf that is still manipulable after sending. That is why I printed and scanned. I have circled the correct answers and rescanned. I will send that version now.

Brent,

You must send this version, an actual pdf, so they can read section 15e, which is on page 2, which is/was missing in the submitted files.

try to use a sign document or e=signature instead of printing/scanning and signing, if not, then you lose the interactive body of the form.

And by printing/scanning, you also lose the highlighted portions, which I did in yellow, where I couldn't do a check box for some reason, so I highlighted the correct answers.. we need to get this right... seems to have been assigned.
